# The RHUMART® Alpha Index of testimonials

## Introduction:

The RHUMART® alpha index catalogues more than 200 authentic testimonials on 39 VHS videocassettes in French and 6 VHS videocassettes in English. These testimonials were recorded live before audiences of between 200 and 1400 people attending lectures given by the inventor of the RHUMART® system.

These historic lectures on the Auto-Santé™ (Self-Health) system were given in Canada, the United States, and England between June 18, 1988, and July 3, 1991. They were filmed courtesy of Médecine-Bioélectrique Inc. and the International RHUMART® Institute (iRi), primarily by Mr. Claude Parent, who can thus speak for the authenticity of these freely given testimonials on more than 200 different health problems. They paint a clear picture of the present and future success of the RHUMART® Auto-Santé™ system in the world of the XXIst century.

Before presenting our RHUMART® alpha index, here are two sample testimonials that are typical of those given by users of the RHUMART® system and listed in the following index.

This index is followed by **a scientific and medical opinion** on the value of the testimonials given by users of the RHUMART® system. This opinion is that of *Dr. A.-M. Bégué-Simon, M.D., epidemiologist*, who served as a medical and paramedical expert for the **Paris Court of Appeals**. A scientific article by **René Tounissoux, consulting sociologist**, on the Auto-Santé™'s impact on the frequency of visits to medical doctors (GPs and specialists alike) and consumption of medication completes this chapter on **Transmitted Autonomy using the RHUMART® holistic approach**.

## • **BERNARD PROULX's Testimonial**

(cassette Ri-6A, Québec, février 1989)

### **Rheumatoid Arthritis and...a RHUMART® Child!**

*“For ten years I was taking up to  
100 Indocid a month.”*

**Bernard Proulx, Feb. 1989  
(giving his testimonial)**

**Feb. 1992: Bernard and his wife  
with their two RHUMART® children!**

When I was 27, I started to have pain in my knees, my ankles, my elbows and my hips. A doctor told me, "It's rheumatoid arthritis." It got worse every year and I started to limp.

I started to take physiotherapy at a general hospital in Québec, but I had to stop - it was too painful.

**I heard that *chiropractors* were good for these kinds of things. I invested a lot of money in that - a big fat zero.**

**The same thing with *acupuncture*. A lot of money - no results.**

With **nuclear medicine** my rheumatologist determined that I had **arthritis in the elbows, the hips, the lower spine, the knees - just about everywhere.** He said, "You have no choice. Continue your medication."

**I was taking up to five Indocid a day and I was still in a lot of pain.** At that time our bedroom was in the basement. I always let my wife go down first: I didn't want her to see me going down the stairs.

It was terrible. I missed at least 15-20 days of work every year.

## **BERNARD PROULX's Testimonial (cont'd)** **Rheumatoid Arthritis and...a RHUMART® Child!**

One day I had a chance to talk to Dr. Drolet on the telephone. I asked him if bioelectric medicine was good for arthritis.

My wife and I met him that very night. Afterwards, my wife said, "We're going to come back tomorrow and buy the system."

And so I began my conditionings. Soon I began to drop one or two medications a week. For ten years I had been dosing myself up with 100 Indocid a month.

I have had my RHUMART® system for two and a half years now and I've completely stopped taking any medication.

Now I celebrate the anniversary of the day when I bought my AUTO-SANTÉ™. It's the best investment I ever made.

### **A RHUMART® Child**

Because of my health problems, my wife and I had decided not to have children. For the last five or six years we hadn't even given it a thought.

One year after buying my RHUMART® system things were going so well that I made a suggestion to my wife: "Why don't we have a baby?" Today we have a 12-month-old little girl - thanks to RHUMART®!  
(P.S.: in Feb. 1992, they had given birth to two children: see photograph)

You can be sure that if I hadn't had my RHUMART® at home, I wouldn't have this little girl now.

Also another reason I'm pleased is that the inventor of this system is a Quebecer. If he had been German or American, I might still be at home tonight with my rheumatoid arthritis.

THANK-YOU VERY MUCH, Dr. Drolet!

**Bernard Proulx**

## **Sports injuries:**

I would just like to tell you about my own experiences with this device. Ever since I was a little boy, we've always had a RHUMART® system at our house. When I was younger, I didn't really believe in it either. But I gave myself a few treatments and started to have more confidence in it. In fact, during a speed-skating competition last year, the guys decided to really floor it - put the "pedal to the metal", as we say. **They wanted to set a new Canadian record.** We flew around the track, faster and faster. In any case, by the end of the race, I was exhausted. Five meters from the finish line, I crashed down on one knee - but I was still in second place when I stood up. I took another step and fell again. I was dead on my feet. I held on to the edge of the rink and headed for the coaches' bench. I didn't even think I had enough energy to leave the rink. I was right at the other end. I sat down on the coaches' bench and yelled at the guys on the side. They were congratulating me on my race and I told them to go get my father. My dad came running, and I asked him to bring me my miniature RHUMART® system right away. I always take my little RHUMART® system with me to competitions.

## FRANÇOIS DROLET's Testimonial (cont'd)

I keep it in my trunk, and at night, I give myself treatments with it. I told my dad where the unit was, and he went to get it in my bag. Then we went to look for an electrical outlet. I took off my "skin" - my skating outfit. My knee was black where I had fallen on it. It was really black! I used the RHUMART® system for about fifteen minutes, and my knee turned pink again! I couldn't believe it, and I took another look - it was pink!

## Recurring otitis (ear infections)

When I was a kid, I was frequently getting otitis. My sister's here tonight, and she can tell you: I had one or two otitis every year. I took antibiotics, and they kept coming back. When I was about twelve years old, I decided to use a bit of logic. I decided to stop taking medication, and I treated myself with aspirin and RHUMART®. I'm seventeen now, and I've never had another otitis since the one after I decided to stop taking medicine and start using RHUMART®.

## Prevention, relaxation, sleep, and injuries

Athletes can also **use the system for prevention**. And not just athletes. I decided to use the system every night to relax and get a better night's sleep. When you don't have a lot of time to sleep, you can give yourself a little RHUMART® treatment. Sometimes you can sleep just five hours and feel like you've slept for twelve. It's really amazing. And **more and more athletes are using RHUMART®**. That's why my dad is in England right now. The RHUMART® system is becoming known around the world. A little while ago, I was speed skating again, when I fell on one knee. At the time, it didn't bother me; I was fine. But the next morning, I could hardly walk. I was limping.

*Testimonial of FRANÇOIS DROLET (cont'd)*

I went to sleep at my friend Sylvain's house, and I couldn't walk. His parents couldn't believe it. It was Saturday. Sylvain's father is the president of the speed skating club. You should have seen his face when I walked in on Monday. I was walking with no problem and I went to skate. I gave myself a treatment at noon on Saturday, when I got home, and one hour later I was running up the stairs. The pain was gone!
