

THE RHUMART® SYSTEM

An alternative to overmedicalization†

The biomedical RHUMART® system induces a regenerative bioelectric flux which plays an essential role in the self-healing process.

The bioelectric flux induced by the **RHUMART®** system eliminates blockages in the disturbed circulation of the nervous communications signals.

Dr R.A. Drolet, Ph.D.

This fundamental biological flux acts on bioelectric communication signals, on blood circulation and on the natural control of pain, **STRESS** and the regenerative quality of sleep, as thousands of users have confirmed.

In short, the RHUMART® regenerator helps strengthen the immune and self-healing systems which are disturbed whenever somebody experiences chronic health problems such as:

Arthritis, inflammation, back pain, STRESS, high blood pressure, chronic pain, insomnia, trauma, ulcers, wounds, osteoporosis, poor circulation, sprains, fractures, even cancer and premature aging.
