### The RHUMART® Health Project for Quebec, 2012-22

**This project means (based on results, since 1980):**

1. Manufacturing 100 000 Self-Health™ systems  
for the most afflicted families in Quebec (Canada);
2. Engaging in a **33% reduction** of health costs in Quebec †:  
in 2010, **51%** of Quebec budget was spent on health;
3. Engaging in a **50% reduction** of hospital waiting lists.

† This 33% reduction of health costs in Quebec is based on two independant scientific reports, realized by the Montreal CROP Research Center, in 1991-92. These CROP reports are summarized and discussed at [www.RHUMART.com](http://www.RHUMART.com) and [www.RODROL.org](http://www.RODROL.org). At his talk, Dr R.A. Drolet will give a copy of **Tome 1** of the **RHUMART® Paradigm** series (in 9 volumes) to everyone attending this meeting.
